

April 27, 2021

Atlas Copco First-quarter report 2021

Record order intake and improved revenue and profit

The comparison figures presented in this report refer to previous year unless otherwise stated.

- Order intake increased 9% to record MSEK 30 468 (28 039), organic growth of 18%
- Revenues increased 4% to MSEK 26 021 (25 098), organic growth of 13%
- Operating profit increased 5% to MSEK 5 387 (5 124), corresponding to a margin of 20.7% (20.4)
 - Adjusted operating profit, excluding items affecting comparability, was MSEK 5 649 (5 099), corresponding to a margin of 21.7% (20.3)
- Profit before tax amounted to MSEK 5 343 (5 010)
- Basic earnings per share were SEK 3.38 (3.16)
- Operating cash flow at MSEK 4 321 (3 825)
- Return on capital employed was 23% (29)

MSEK	January - March		
	2021	2020	
Orders received	30 468	28 039	9%
Revenues	26 021	25 098	4%
EBITA*	5 742	5 430	6%
– as a percentage of revenues	22.1	21.6	
Operating profit	5 387	5 124	5%
– as a percentage of revenues	20.7	20.4	
Profit before tax	5 343	5 010	7%
– as a percentage of revenues	20.5	20.0	
Profit for the period	4 117	3 840	7%
Basic earnings per share, SEK	3.38	3.16	
Diluted earnings per share, SEK	3.38	3.15	
Return on capital employed, %	23	29	

* Operating profit excluding amortization of intangibles related to acquisitions.

Near-term demand outlook

Although the world's economic development remains uncertain, Atlas Copco expects that the customers' business activity level will remain at the high current level.

Previous near-term demand outlook (published January 29, 2021):

Although the world's economic development remains uncertain, Atlas Copco expects that the demand for the Group's products and services will remain at current level.

Revenues, profits and returns

Revenues increased 4% to MSEK 26 021 (25 098), corresponding to an organic growth of 13%. Currency had a negative effect of 11%, and acquisitions added 2%.

The operating profit increased 5% to MSEK 5 387 (5 124) and includes a change in provision for share-related long-term incentive programs, reported in Common Group Items of MSEK -262 (+55). Previous year's items affecting comparability also included a restructuring cost of MSEK -30 in the business area Industrial Technique.

Adjusted operating profit increased 11% to MSEK 5 649 (5 099), corresponding to a margin of 21.7% (20.3). Higher revenue volumes supported the margin, while currency had a negative impact. The margin in all business areas also benefited from the remaining effects of last year's cost containments.

The net currency effect compared to the previous year was negative MSEK 1 065, mainly due to the weaker USD.

Net financial items were MSEK -44 (-114). Interest net at MSEK -42 (-65) was lower compared to the previous year due to less interest-bearing debt. Other financial items, mainly financial exchange differences, were MSEK -2 (-49). Profit before tax amounted to MSEK 5 343 (5 010), corresponding to a margin of 20.5% (20.0). Corporate income tax amounted to MSEK -1 226 (-1 170), corresponding to an effective tax rate of 22.9% (23.4).

Profit for the period was MSEK 4 117 (3 840). Basic and diluted earnings per share were SEK 3.38 (3.16) and SEK 3.38 (3.15), respectively.

The return on capital employed during the last 12 months was 23% (29). Return on equity was 27% (33). The Group uses a weighted average cost of capital (WACC) of 8.0% as an investment and overall performance benchmark.

Operating cash flow and investments

Operating cash surplus increased to MSEK 6 773 (6 420). Working capital increased by MSEK 500 (increase of 336). Net investments in rental equipment were MSEK -84 (-150) and net investments in property, plant and equipment were MSEK -340 (-411).

Operating cash flow (important internal KPI, but not an IFRS measurement, and hence defined on page 13) reached MSEK 4 321 (3 825).

Net indebtedness

The Group's net indebtedness amounted to MSEK 11 429 (13 859), of which MSEK 2 837 (3 075) was attributable to post-employment benefits. The Group's interest-bearing liabilities have an average maturity of 4.7 years. The net debt/EBITDA ratio was 0.5 (0.5) and the net debt/equity ratio was 19% (24).

Acquisition and divestment of own shares

During the quarter, 657 943 A shares, net, were sold for a net value of MSEK 323. These transactions are in accordance with mandates granted by the Annual General Meeting and relate to the Group's long-term incentive programs. See page 17.

Employees

On March 31, 2021, the number of employees was 40 482 (39 611). The number of consultants/external workforce was 3 290 (3 030). For comparable units, the total workforce decreased by 253 from March 31, 2020.

Industrial compressors

The demand for industrial compressors was strong, and order volumes increased compared to the previous year and compared to the previous quarter. Large, and small/medium-sized industrial compressors grew at a similar pace.

Geographically, and compared to the previous year, order volumes increased in all regions.

Gas and process compressors

Order volumes for gas and process compressors did not reach the previous year's level but increased markedly compared to the previous quarter.

Year-on-year, order volumes decreased in all regions except North America, where the order intake increased.

Compressor service

Service orders increased both compared to the previous year and sequentially.

The year-on-year growth was primarily driven by increased demand in Asia and South America, while orders in other regions where basically unchanged.

Innovation

A new range of small-sized industrial compressors, the Atlas Copco G 2-7, was introduced. Unlike other compressors of similar size, these compressors are based on screw technology with superior efficiency and built for continuous use. In addition to high energy efficiency and low carbon footprint, the new compressors offer a reduced noise level of 20% compared to similar products.

Acquisitions

The business area completed three acquisitions in the quarter:

Kawalek Kompressoren, a German compressed air distributor and service provider with 10 employees.

DGM SRL, an Italian distributor of compressed air equipment and related services with 21 employees.

Cooper Freer Ltd, a UK-based compressed air distributor and service provider with 18 employees.

Revenues and profitability

Revenues reached MSEK 11 522 (11 588), corresponding to an organic increase of 11%.

The operating profit increased 8% to MSEK 2 730 (2 520), corresponding to a margin of 23.7% (21.7). The higher margin was primarily due to higher revenue volumes, while currency had a negative impact. Return on capital employed (last 12 months) increased to 84% (80).

Orders, revenues and operating profit margin

Vacuum Technique

Semiconductor and flat panel display equipment

The demand for equipment to the semiconductor industry remained very strong, and the order intake increased significantly compared to the previous year and sequentially. The strong demand was primarily related to production capacity investments, but also investments in new technology.

Geographically, and compared to the previous year, the order growth was achieved across all major regions.

Industrial and scientific vacuum equipment

Order volumes for industrial and scientific vacuum equipment also increased considerably, supported by increased demand from most customer segments.

Year-on-year, the order intake increased in Asia, and Europe but decreased in North America.

Vacuum service

Service orders increased year-on-year and sequentially, both to industrial vacuum customers and to the semiconductor industry.

Geographically, and compared to the previous year, the order intake increased in all regions.

Innovation

A new vacuum pump with smart connectivity capabilities targeting a wide range of industrial applications was introduced, the Leybold DRYVAC DV 800. A patented rotor design and low constant power consumption generate increased energy efficiency compared to older technologies in targeted applications.

Acquisitions

The business area completed the acquisitions of Ehrler & Beck GmbH, a European distributor of industrial vacuum equipment and service solutions. The company is based in Germany and has 15 employees.

Revenues and profitability

Revenues increased 11% to record MSEK 6 808 (6 159), corresponding to an organic increase of 23%.

The operating profit increased 13% to MSEK 1 695 (1 497), corresponding to a margin of 24.9% (24.3). The margin was supported by higher revenue volumes, but negatively affected by currency. Return on capital employed (last 12 months) was 20% (22).

Orders, revenues and operating profit margin

Organic*, %	+13	+12
Total, %	+15	+12
2021	5 143	4 713

*Volume, price and mix.

Automotive industry

The demand for advanced industrial tools and assembly solutions increased, supported by customers' increased investments in electrical vehicle production, particularly in Asia. Solid order growth was achieved both compared to the previous year and sequentially. The order intake for machine vision solutions, such as robot guidance and quality inspection, also increased markedly compared to the previous year.

Geographically, and compared to the previous year, order volumes increased in all regions except Europe.

General industry

The order intake for industrial power tools to the general industry increased, supported by increased demand in most customer segments. The demand for machine vision solutions to the general industry also improved and strong order growth was achieved in the quarter.

In total, the order intake increased in all major regions.

Service

Service orders increased compared to the previous year and sequentially. Geographically, and compared to the previous year, the order intake increased in all major regions.

Innovation

The new Henrob 4mm Self-pierce riveting system was launched to meet the demand for smaller and lighter flanges in car bodies in the automotive industry. With the newly developed rivets and smaller riveting tooling, carmakers will retain structural joint strength and consistency in safety-critical areas despite thinner frames in the car body.

Revenues and profitability

Revenues increased to MSEK 4 713 (4 193), corresponding to an organic increase of 12%.

The operating profit increased 15% to MSEK 917 (799), corresponding to a margin of 19.5% (19.1). The margin was supported by increased revenue volumes, but negatively affected by currency and dilution from acquisitions. Return on capital employed (last 12 months) was 12% (31), heavily affected by the recent acquisition of ISRA VISION.

Orders, revenues and operating profit margin

Power Technique

MSEK	January - March		
	2021	2020	
Orders received	3 674	3 823	-4%
Revenues	3 121	3 325	-6%

Structural change, %	+0	+0
Currency, %	-11	-11
Organic*, %	+7	+5
Total, %	-4	-6
2021	3 674	3 121

*Volume, price and mix.

Equipment

Order volumes for power equipment increased, both compared to the previous year and sequentially. The year-on-year growth was driven by increased orders for portable compressors, while generators and pumps could not repeat previous year's record level.

Geographically, and compared to the previous year, the order intake increased in Asia and Europe but decreased in North America.

Specialty rental

The demand for the specialty rental business remained stable and the order intake was basically unchanged compared to the previous year and compared to the previous quarter.

Year-on-year, order volumes increased in North and South America but decreased in all other regions.

Service

Service orders volumes increased compared to the previous year and sequentially.

Compared to the previous year, order intake increased in all major regions.

Innovation

A new TwinPower® generator was launched. Due to the unique TwinPower® technology with two smaller engines housed in one unit instead of one large engine, the fuel consumption can be reduced by up to 40% thanks to fewer mechanical losses. Compliant with the European Stage V regulations, the generator provides more environmentally friendly operations, with nitrogen oxide (NOx) emissions reduction of up to 80% versus other models.

Revenues and profitability

Revenues reached MSEK 3 121 (3 325), corresponding to an organic increase of 5%.

The operating profit was MSEK 476 (473), corresponding to a margin of 15.3% (14.2). The margin improvement was due to increased revenue volumes, partly offset by a negative currency effect. Return on capital employed (last 12 months) was 19% (25).

Orders, revenues and operating profit margin

Accounting principles

The consolidated accounts of the Atlas Copco Group are prepared in accordance with International Financial Reporting Standards (IFRS). The description of the accounting principles and definitions applied in this report are found in the Annual Report 2020. The interim report is prepared in accordance with IAS 34 Interim Financial Reporting. Non-IFRS measures are also presented in the report since they are considered to be important supplemental measures of the company's performance. For further information about these measures and how they have been calculated, please visit: <http://www.atlascopcogroup.com/investor-relations>

Risks, risk management and factors of uncertainty

Atlas Copco's global and diversified business is active within many customer segments and results in a variety of risks and opportunities geographically and operationally. Thus, the ability to identify, analyze and manage risks is crucial for effective governance and control of the business. The aim is to meet the Group's goals with a high awareness of risks and well-managed risk taking. Atlas Copco sees the benefits of an efficient risk management both from risk reduction and business opportunity perspectives, which can lead to good business growth.

Risks in Atlas Copco are identified in a 360 degree spectrum, meaning that both internal, and external exposures are assessed including today's circumstances and future changes. The Group's risk management approach follows the decentralized structure of Atlas Copco. Risks are analyzed and addressed in an integrated way. Local companies are responsible for their own risk management, which is monitored and followed up regularly at for example local business board meetings. Group functions responsible for legal, insurance, human resources, compliance, sustainability, treasury, tax, controlling and accounting provide policies, guidelines and instructions regarding risk management.

Risk areas include compliance risks, external exposure risks, including pandemics, operational risks and strategic risks. These risk areas can impact the business negatively both in the long and short term, but often also create business opportunities if managed well. Examples of risks and how they are handled is described below.

Market risks

The demand for Atlas Copco's equipment and services is affected by changes in the customers' investment and production levels. A general economic downturn, geopolitical tensions, pandemics, changes in trade agreements, trade sanctions, a widespread financial crisis and other macroeconomic disturbances may, directly or indirectly, affect the Group negatively both in terms of revenues and profitability. However, the Group's sales are well diversified with customers in many industries and countries around the world, which mitigates the risk.

Financial risks

Atlas Copco is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco has adopted a policy to control the financial risks to which the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

Production risks

A large part of the components used in production are sourced from sub-suppliers. The availability is dependent on the sub-suppliers and if they have interruptions or lack capacity, this may adversely affect production. To minimize these risks, Atlas Copco has established a global network of sub-suppliers, which means that in most cases there are more than one sub-supplier that can provide a certain component. Atlas Copco is also directly and indirectly exposed to raw material prices. Cost increases for raw materials and components often coincide with strong end-customer demand and can partly be compensated for by increased sales prices.

Acquisitions

Atlas Copco has the ambition to grow all its business areas, primarily through organic growth, complemented by selected acquisitions. The integration of acquired businesses is a difficult process and it is not certain that every integration will be successful. Therefore, costs related to acquisitions can be higher and/or synergies can take longer to materialize than anticipated.

For more information of Atlas Copco's risk management process and further descriptions of risks and how they are handled, see the Annual Report 2020.

Forward-looking statements

Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.

Atlas Copco AB

Atlas Copco AB and its subsidiaries are sometimes referred to as the Atlas Copco Group, the Group or Atlas Copco. Atlas Copco AB is also sometimes referred to as Atlas Copco. Any mentioning of the Board of Directors, the Board or the Directors refers to the Board of Directors of Atlas Copco AB.

Fair value of derivatives, cash equivalents and borrowings

The carrying value and fair value of the Group's outstanding derivatives, liquidity funds and borrowings are shown in the tables below. The fair values of bonds are based on level 1 and the fair values of derivatives, liquidity funds and other loans are based on level 2 in the fair value hierarchy. Compared to 2020, no transfers have been made between different levels in the fair value hierarchy for derivatives and borrowings and no significant changes have been made to valuation techniques, inputs or assumptions. Liquidity funds, reported under cash equivalents, are according to IFRS 9 classified at fair value through profit and loss. For further information, see note 27 in the Annual Report 2020.

*Annual revenues and number of employees at time of acquisition/divestment. No revenues are disclosed for former Atlas Copco distributors. Due to the relatively small size of most of the acquisitions made in 2021, full disclosure as per IFRS 3 is not given in this interim report. Disclosure will be given in the annual report 2021. See the annual report for 2020 for disclosure of acquisitions made in 2020.

Accounting principles

Atlas Copco AB is the ultimate Parent Company of the Atlas Copco Group. The financial statements of Atlas Copco AB have been prepared in accordance with the Swedish Annual Accounts Act and the accounting standard RFR 2, Accounting for Legal Entities. The same accounting principles and methods of computation are followed in the interim financial statements as compared with the most recent annual financial statements. See also accounting principles, page 8.

Parent Company

Distribution of shares

Share capital equaled MSEK 786 (786) at the end of the period, distributed as follows:

Class of share	Shares
A shares	839 394 096
B shares	390 219 008
Total	1 229 613 104
- of which A shares held by Atlas Copco	12 762 508
- of which B shares held by Atlas Copco	0
Total shares outstanding, net of shares held by Atlas Copco	1 216 850 596

Performance-based personnel option plan

The Annual General Meeting 2020 approved a performance-based long-term incentive program. For Group Management and division presidents, the plan requires management's own investment in Atlas Copco shares. The intention is to cover Atlas Copco's obligation under the plan through the repurchase of the company's own shares. For further information, see www.atlascopcogroup.com/agm

Transactions in own shares

Atlas Copco has mandates to acquire and sell own shares as per below:

- Acquisition of not more than 3 350 000 series A shares, whereof a maximum of 2 700 000 may be transferred to personnel stock option holders under the performance-based stock option plan 2020.
- Acquisition of not more than 15 000 series A shares to hedge the obligation of the company to pay remuneration to board members who have chosen to receive 50% of the remuneration in synthetic shares.

- The sale of not more than 10 000 series A shares to cover costs related to previously issued synthetic shares to board members.
- The sale of a maximum 7 000 000 series A and B shares currently held by the company, for the purpose of covering costs of fulfilling obligations related to the option plans 2015, 2016 and 2017.
- The shares may only be acquired or sold on NASDAQ Stockholm at a price within the registered price interval at any given time.

During the first quarter 2021, 657 943 series A shares, net, were sold. These transactions are in accordance with mandates granted. The company's holding of own shares at the end of the period appears in the table to the left.

Risks and factors of uncertainty

Financial risks

Atlas Copco AB is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco has adopted a policy to control the financial risks to which Atlas Copco AB and the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

For further information, see the 2020 annual report.

Related parties

There have been no significant changes in the relationships or transactions with related parties for the Group or Parent Company compared with the information given in the annual report 2020.

This is Atlas Copco

The Atlas Copco Group is a world-leading provider of sustainable productivity solutions, demanded by all types of industries, enabling everything from industrial automation to reliable medical air solutions. The Group offers innovative compressors, air treatment systems, vacuum solutions, industrial power tools and assembly systems, machine vision, and power and flow solutions. Atlas Copco develops products and services focused on productivity, energy efficiency, safety and ergonomics, supported by insights from connected products. The company was founded in 1873, is based in Nacka, Sweden, and has a global reach spanning more than 180 countries. In 2020, Atlas Copco had revenues of BSEK 100 (EUR 10) and about 40 000 employees at year end.

Business areas

Atlas Copco has four business areas. The business areas are responsible for developing their respective operations by implementing and following up on strategies and objectives to achieve sustainable, profitable growth.

The **Compressor Technique** business area provides compressed air solutions; industrial compressors, gas and process compressors and expanders, air and gas treatment equipment, and air management systems. The business area has a global service network and innovates for sustainable productivity in the manufacturing and process industries. Principal product development and manufacturing units are located in Belgium, the United States, China, India, Germany, and Italy.

The **Vacuum Technique** business area provides vacuum products, exhaust management systems, valves and related products. The main markets served are semiconductor and scientific instruments as well as a wide range of industrial segments including chemical process industries, food packaging and paper handling. The business area has a global service network and innovates for sustainable productivity in order to further improve its customers' performance. Principal product development and manufacturing units are located in the United States, Mexico, United Kingdom, Czech Republic, Germany, South Korea, China, and Japan.

The **Industrial Technique** business area provides industrial power tools, assembly and machine vision solutions, quality assurance products, software, and service through a global network. The business area innovates for sustainable productivity for customers in the automotive and general industries. Principal product development and manufacturing units are located in Sweden, Germany, Hungary, United Kingdom, France, the United States, China, and Japan.

The **Power Technique** business area provides air, power and flow solutions through products such as mobile compressors, pumps, light towers and generators, along with a number of complementary products. It also offers specialty rental and provides services through a dedicated, global network. Guided by a forward-thinking approach to innovation, Power Technique provides sustainable productivity solutions across multiple industries, including construction, manufacturing, oil and gas, and exploration drilling. Principal product development and manufacturing units are located in Belgium, Spain, the United States, China, and India.

Vision, mission and strategy

The Atlas Copco Group's vision is to become and remain First in Mind—First in Choice of its customers and other principal stakeholders. The mission is to achieve sustainable, profitable growth. Sustainability plays an important role in Atlas Copco's vision and it is an integral aspect of the Group's mission. An integrated sustainability strategy, backed by ambitious goals, helps the company deliver greater value to all its stakeholders in a way that is economically, environmentally and socially responsible.
