

Atlas Copco Compressor Technique

Atlas Copco Capital Markets Day, December 2, 2008

Ronnie Leten, Business Area President

Agenda

- Where we are – What we do?
- Growth drivers
- Supply Chain development
- Product development

Atlas Copco

Revenues and operating margin

- Strong direct presence in BRIC and African countries
- Growth potential in Aftermarket sales
- High focus on energy saving products

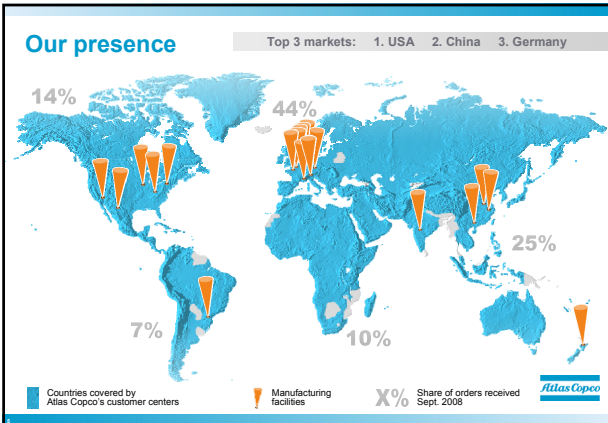

12 month values, 2006 pro forma, continuing business included in CT

Atlas Copco

Revenue diversity

Atlas Copco

What are the growth drivers in the Compressed Air business?

Specifically, what are they for our **Compressor Technique**?

Atlas Copco

Growth drivers

Growth drivers

- Market penetration / share
- BRIC countries and Africa
- Global business trends
- Aftermarket

Supported by

- Supply Chain development
- Innovations

Atlas Copco

Market penetration / share

Geographical areas with "low" market share show potential

OUR ACTIONS

- Improve present structure
- Develop market channels: more, well trained "Feet on the Street" / more distributors / multibrand
- Acquisitions

Atlas Copco

High potential: BRIC, Africa & Middle East

- Channel development and multi brand
- Achieve high product & service penetration
- Adapt and improve product offer
- Expand Supply Chain capabilities
- Air Academy: focus on people development

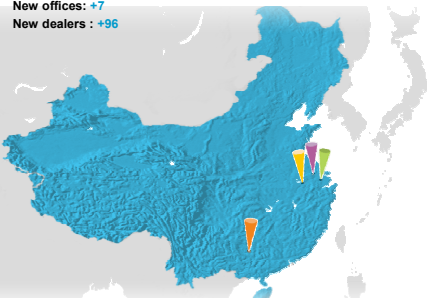

Atlas Copco

Invest in densification

China

New offices: +7
New dealers: +96

Atlas Copco

Dedicated gas & process factory in China

Invest in densification

India

Supply Chain development

is on top of the agenda

Shorten
the Supply Chain

More products produced
in China and India

Global
Sourcing

Component sourcing
out of
China and India

Regional distribution
centers to support our
worldwide service
operations

Deliveries
of
spare parts

Atlas Copco

What are the global trends in the market?

& how can these trends influence our growth?

Atlas Copco

Global trends in the compressor market

<p>TOTAL SOLUTIONS PROVIDER globalization - specialization - aftermarket</p> 	<p>INCREASED ENVIRONMENTAL AWARENESS energy savings - reduce CO2 emission</p> 	<p>REDUCE LIFE CYCLE COST</p> 
---	--	--

Atlas Copco

Global trends in the compressor market

TOTAL SOLUTIONS PROVIDER
globalization - specialization - aftermarket

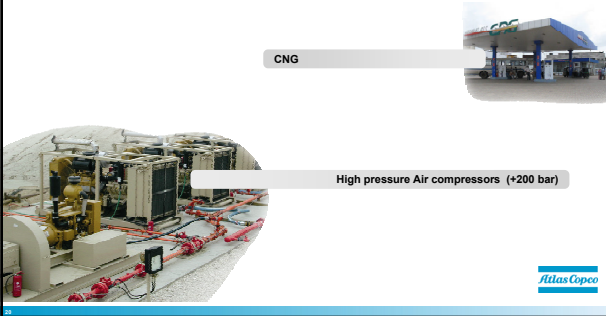

The demand of the market for a complete solution provider drives us to extend our offer.

Since the last 2 years

We have extended our offer for high pressure applications

The demand for higher quality of air

has supported our growth in air treatment

- Extend our product offer
- Acquisition Pneumatech
- New factory in China

The investment in expanders

has allowed us to penetrate in new market segments such as:

- Geothermal
- CO₂ Capture and Storage (CCS)
- Pressure let down
- FPSO (floating LNG production)

Atlas Copco

Global trends in the compressor market

INCREASED ENVIRONMENTAL AWARENESS
energy savings - reduce CO₂ emission

Energy Efficiency is on everybody's agenda, and offering the best compressor installation / solution requires the mastering of many technical capabilities.

Atlas Copco

Master technical capabilities

WORLD CLASS SOLUTIONS

Atlas Copco

Global trends in the compressor market

REDUCE LIFE CYCLE COST

energy savings - reduce CO2 emission

With higher Energy prices, Life Cycle Cost management becomes much more important.

Atlas Copco

Reduce life cycle cost

10%

Maintenance & installation

20%

Compressor

70%

Energy

SAVINGS POTENTIAL

- Durability / uptime
- Solutions
- Global support

Atlas Copco

Energy saving products will lead market trends!

MD

VSD

Petpack

Atlas Copco

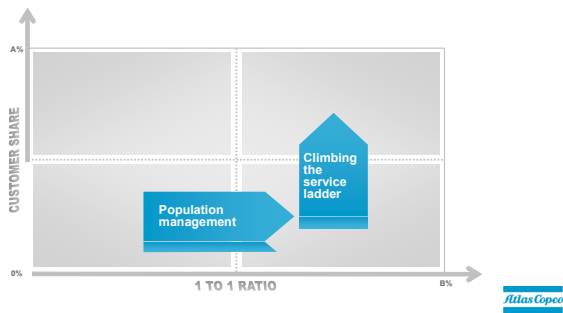

Aftermarket

New service products, coupled with a higher market penetration, support the aftermarket growth

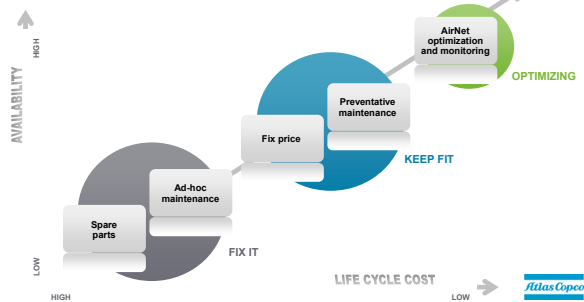

Growth in aftermarket

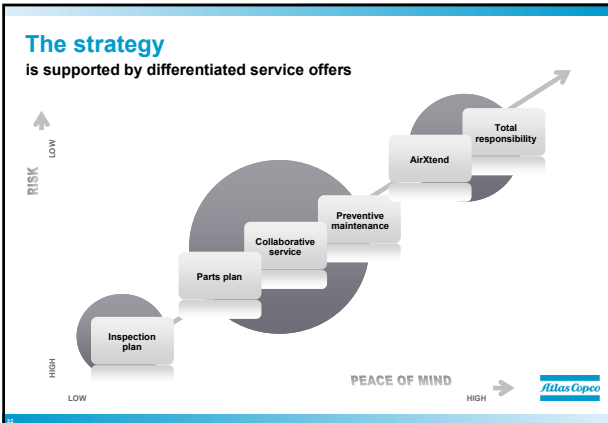

is driven by 2 dimensions

The strategy

climbing the service ladder supported by a complete aftermarket offer

- ### Summary outlook
- React to the present, but plan for the long term.
 - Slow down in demand for small industrial compressors in Western Europe
 - Cost reduction program in progress
 - High focus on capital tied-up reduction
- 34

We are committed to your superior productivity through interaction and innovation.
